

# CUSTOM CUT PARTS

## Ready-To-Fit Kits

Smiley Monroe is continuously investing in the latest automated cutting technology, capable of precision cutting and drilling profiles, patterns, holes and slots in a variety of materials - from cork to rubber sheeting and conveyor belting up to 20mm thick.

We produce value added ready-to-fit parts, such as conveyor skirting rubber, gaskets, seals and washers - for a wide range of applications, including conveyor and screen encapsulation, slurry tanks, and oil seals.

We are trusted as a sole supplier of Custom Cut Parts to global manufacturers of mobile materials processing equipment (OEMs).

### WHY CUSTOM CUT PARTS?

- ✓ 2D automated CNC cutting of rubber sheeting and conveyor belting up to 20mm thick
- ✓ Polyurethane (PU) & Polyethylene (Pe) materials precision CNC cut in-house by waterjet
- ✓ Implement design changes immediately
- ✓ Our Custom Cut Parts are supplied ready-to-fit in kit form, improving production line efficiency
- ✓ All parts are pen-marked as standard for easy identification and re-ordering

### APPLICATIONS

- **Crushing, Screening & Recycling**
- **Washing & Environmental**
- **Agricultural**
- **Bulk material handling**
