

FABRIC BREAKER BELTS

We've Got You Covered

Constructed with synthetic fabric plies, an additional fabric breaker ply and a heavy duty top cover, Fabric Breaker conveyor belts are a good all-rounder for crushing and screening.

WHY FABRIC BREAKER?

- ✓ Breaker ply protects the belt carcass
- ✓ Heavy duty rubber top cover
- ✓ Longer lifespan - outlast multi-ply belts
- ✓ Can be easily hot spliced (vulcanised)

CONVEYOR BELT SELECTION CHART

	Fabric Breaker	Ripstop
Wear Resistance	Good	Good
Impact Resistance	Good	Good
Rip Resistance	Good	Excellent
Puncture Resistance	Good	Excellent
Cut Resistance	Good	Good
Small pulley diameters	Good	Good
Troughability	Good	Good

SPECIFICATIONS

Tensile Strength (N/mm ²)	Ply	Top/Bottom Covers (mm)	Stock Widths (mm)
EP500	3 + 1	8 + 2	900/1000/1050/1200
EP500	4 + 1	10 + 3	1200/1300/1500

FABRIC BREAKER CONSTRUCTION

APPLICATIONS

- Jaw & Cone Crusher Collection Belts
- Primary Screening

Fabric Breaker belts are recommended in applications where there is not a high risk of rip and puncture.
